

HIGH VIBRATION WIRE SCREEN

CROWN DECK ADAPTERS

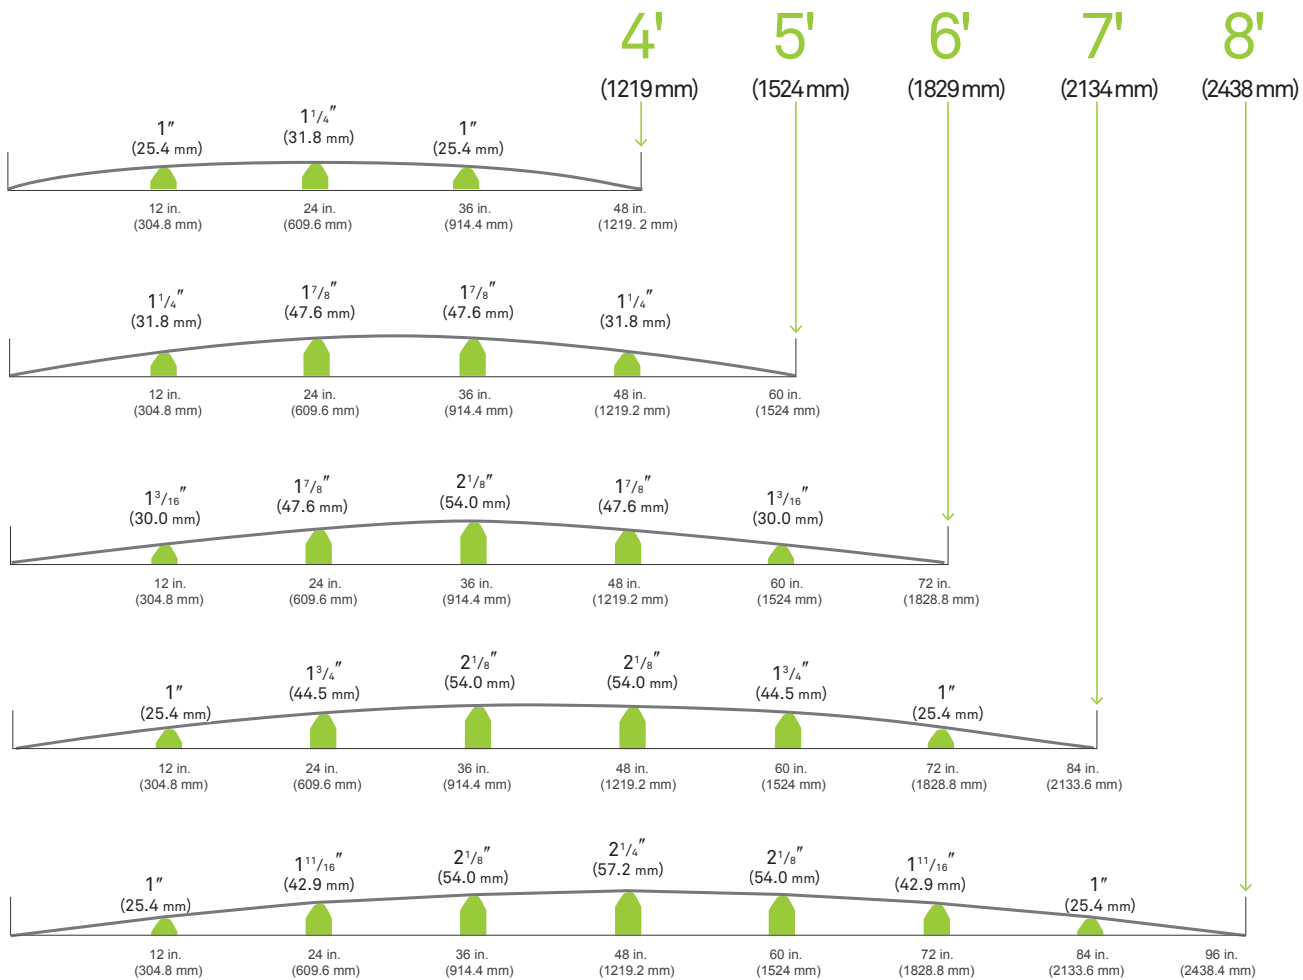

The adapters are necessary in order to achieve the optimal crowned deck for your screen if the screen box was initially fitted with panels. The adapters can also be installed on flat decks that were originally designed to use modular synthetic screens or punch plates.

HIGH VIBRATION WIRE SCREEN

CROWN DECK ADAPTERS

For other widths, the optimal curve for a crowned deck can be calculated by our inside sales personnel. Only with proper assessment the correct adapters for the crowned deck modifications can be ordered and installed.

ADAPTER HEIGHTS:

1"	1" 3/16	1" 1/4	1" 11/16	1" 3/4	1" 7/8	2" 1/8	2" 1/4
(25.5 mm)	(30.0 mm)	(31.8 mm)	(42.9 mm)	(44.5 mm)	(47.6 mm)	(54.0 mm)	(57.2 mm)
