

Spokane Industries VSI Wear Parts

The Leader In Vertical Shaft Impactor Wear Parts

As the manufacturer of the original Spokane Crusher, Spokane Industries has over 40 years of experience in Vertical Shaft Impactor Wear Parts.

Spokane Industries provides wear parts in standard chrome as well as our patented Si-Tec® ceramic composite. Spokane has a wide selection of anvils, impellers, table liners, feed discs, feed tubes, lid liners, tub liners, and bracket protectors.

Depending on your application, Spokane Si-Tec® Ultra Wear-Resistant Parts provide up to 200% more wear life compared to standard chrome parts. In addition to longer life, Si-Tec® increases aggregate production volume through more efficient and effective crushing.

Come experience the Si-Tec® advantage!

With VSI Crusher Wear Parts For Top Manufacturers:
